

BIOMEDICAL EQUIPMENT TECHNICIAN II, FIELD SERVICE

TRUMBULL, CT

NovaMed Corporation is seeking a full time Field Service BMET proficient in repairing and maintaining a variety of complex medical equipment. The Biomedical Equipment Technician II is responsible for providing intermediate-level experience in the repair, calibration, and maintenance on basic to complex biomedical equipment and instrumentation, and the associated support systems used in healthcare delivery. BMET II personnel are expected to consistently maintain effective relationships with co-workers, client and vendor staff, and the general public. Qualified candidates are encouraged to apply ASAP! Candidates who are interested in obtaining certification (CBET) are encouraged to apply.

Responsibilities include, but not limited to:

- Performing routine repair & preventive maintenance on biomedical equipment ranging from simple to complex.
- Inspecting, testing, calibrating equipment, devices & systems - including life support equipment
- Running diagnostic programs and interpreting results
- Performing safety tests to ensure patient and staff safety related to electrical/mechanical hazards
- General troubleshooting and problem resolution
- Preparing timely and accurate documentation
- Following policies, procedures, protocols, regulatory standards & codes
- Maintaining excellent customer & vendor relationships
- Entering data and producing reports in computerized systems
- Providing verbal and written reports to management and client
- Demonstrating and explaining appropriate operation of equipment to client personnel
- Maintaining equipment and documentation to meet Joint Commission and other regulatory standards.
- Assisting with maintenance of accurate equipment inventories.

Your resume should demonstrate your qualifications:

- AS Degree: Electronics/Biomedical/Related OR Relevant Military Training
- BMET II (minimum) experience - including 3 or more years working as BMET with increasing responsibilities in hospital or field service environment, on a variety of medical equipment

- Knowledge of basic electronic principles and ability to interpret technical diagrams for a variety of devices
- Understanding of basic anatomy and physiology related to functions of biomedical equipment
- Good English language skills to communicate effectively with all levels of internal and external staff
- Basic PC software proficiency (MS OUTLOOK,WORD, EXCEL preferred)
- Good references and demonstrated quality customer service skills
- General knowledge of Joint Commission standards, other regulations, healthcare safety protocols, etc.
- History of attention to detail and on-time paperwork completion
- Ability to work successfully independently, and to perform effectively as a team-member

In addition, this position requires:

- Ability to report reliably to work, with minimal supervision.
- Positive attitude and ability to build/maintain good internal and external relationships.
- Reliable personal transportation, with appropriate level of insurance for business use.
- Good driving record.
- Good manual dexterity & hand-eye coordination to work with small parts, tools, etc.
- Color vision to determine wiring and other safety coding.
- Ability to lift, move up to 35-50 lbs. equipment, tools, etc.

NovaMed has provided services to clients for thirty five years. We are dedicated to maintaining quality programs to assist our customers in meeting the standard of care required by the communities they serve.

Our non-supervisory technical employees receive competitive wages with overtime compensation, plus paid leave & holiday time, and excellent benefits including health, dental and life/disability insurances, 401(k) plan, pre-tax flexible spending accounts for health & child care, tuition reimbursement, job-related training.

NovaMed uses E-Verify® (a web based program administered by the U.S. Department of Homeland Security) to determine whether a new hire is authorized to work in the United States and if the new hire's information matches government records. NovaMed is an Affirmative Action/Equal Opportunity Employer M/F/D/V, working cooperatively with our employees to provide a Drug-Free Workplace.

Qualified Minorities / Women / Persons with Disabilities / Veterans are encouraged to apply.
